1. The indicated allowability of claims 1-20 is withdrawn in view of the newly discovered reference(s) to Endelman et al. Rejections based on the newly cited reference(s) follow.

## Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35
 U.S.C. 102 that form the basis for the rejections under this section made in this
 Office action:

A person shall be entitled to a patent unless -

- (a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.
- a. Claims 1, 10-11 and 20, as broadly claimed, are rejected under 35 U.S.C. 102(a) as being anticipated by Endelman et al. Endelman discloses a frame (18-fig. 1) having a longitudinal portion and a base (20) adapted for linear motion supported by the frame and a lock (fig. 12a-b) mounted to the frame and a bar (fig. 11) coupled to the lock and a pivotal head portion (52) mounted to the frame including a spring (24) coupled to the frame. As to claims 10 and 20, the base includes at least one wheel (fig. 14).

## Allowable Subject Matter

3. Claims 2-9 and 12-19 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Art Unit: 3764.
